

Ellyn Derman

NO Project Jupiter. Deny the air quality permit due to Bloom Energy's hazardous waste dumping past. Dona Ana County is impacted already with environmental pollution. Jobs for building do not mean jobs after the building is complete and damage continues now economically, societally and environmentally. Protect our human and environmental resources for the future.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.

Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.
