

Jamie Luna

Stop killing the only planet we have, the insatiable greed won't get you more money anyway when there's nobody alive to give it to you. It is insidious to think anyone could be okay with razing the world for incompetent technology in the first place, but knowing the risk vs reward and deficit of the populus for the sake of a ugly waste of time as a result. Deeply concerning and ugly behaviour. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually. Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution. For years, Doña Ana County has been called a 'nonattainment' zone— this means our air quality does not meet federal government rules.
