

Lauren Finkbiner

We need an additional 60 days to review project Jupiter to determine impact and if it benefits the people of New Mexico. We must review energy demand of the center and affect on health of nearby population, particularly the air quality. If the air quality is unacceptable it should NOT be built. Project Jupiter is a waste of resources and disrespectful to nature, our animals and human life. AI is being forced upon us to the detriment of the planet and our only home. Stop this abomination! We do not want SURVEILLANCE CENTERS and HIGHER BILLS AND WATER SCARCITY!!!!!!!!!!!!
