

Sophie Johnston

I will admit I don't know much about Project Jupiter, but what I do know is that it is extremely harmful, for both humans and other creatures alike. It will take up water and space that we need to survive, further driving global warming to a dangerous degree to where we can no longer stop it. I am 18 years old, soon starting college to pursue my dream, if the world continues the way it is now with how we treat the earth, I likely won't get to live out my dream, or even retire, because I may already be dead before 50 because of the problems global warming will cause. Think of the younger generations, think of your children, their futures that you are stripping away from them because you want more AI, more power. Think of humanity

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
