

Halley Wheelless

I am completely against allowing this permit to be allowed. It is unbelievably dangerous to move forward with Project Jupiter and the extreme waste of natural resources. Nothing is worth giving up our water for - water is life and destroying the beauty of NM so some billionaire outsiders can add to their wealth is wrong and harms our people, land, and air. **DO NOT ALLOW THE PERMIT TO MOVE FORWARD.** I am tired of trying to help my daughter believe there is a future in NM when all we are doing is selling out and destroying the land of our ancestors.
