

## Morrigan Manns

I oppose the creation of Project Jupiter. I do not believe it is worth the recourses it would take from our wildlife and citizens. I strongly urge you to reconsider this decision. There has been very bad transparency between these companies and the people who live in the area. This permit should be denied for the health and safety of the people who live there, and there needs to be better transparency for the people.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
