

Alondra Hernández

Project Jupiter threatens the safety and well being of my community and environment. I do not agree with this data center construction and would like to advocate for its denial. New Mexico needs clean water and healthy residents, not an artificial intelligence data center that will disrupt our ecosystems and health.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
