I am writing to express that I DO NOT SUPPORT PROJECT JUPITER IN ANY WAY SHAPE OR FORM. Nobody needs another fucking data center your rat fuck of a human Larry Ellison. Burn I fucking hell all of you behind this. If you support this may your children be struck with incurable diseases, you fucking sellouts. Get tf out of NM and put a gun to your head and pull the trigger. Or kill Larry Ellison. Do something good for the world but what youre doing now is destroying it and youre better off dead than in it if you stand behind this.

Fuck Project Jupiter and anyone who supports it.
