

Konner Davis

To whom it may concern,

My name is Konner Davis. I'm a New Mexican native and this land means a lot to me. I want to see our community thrive and our ecological systems preserved. It is my belief that we do not currently have the infrastructure to support this data center, and it would be detrimental to our communities, especially our rural communities. Please deeply consider this as decisions are being made regarding the land permit required for this data center. I am pro economic evolution and pro progress, but I this data center generates a risk that outweighs the benefit.

Thank you for reading.
