

Seren Thorn

I'd like to let you know, that project Jupiter will kill people. Your forced clientele is going to die if this happens, climate change is our shared disaster and we must stop it. Your data centre will only contribute masses of deaths. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
