We need to stop ai we don't even need it I don't know why out of a sudden we need it! Trump needs to stop putting bad carbon in the air as global warming gets worse and animals starts dying then when animals die there won't be anything to eat! That's how we die and we can't eat money. Trump needs to get put out the office immediately!

New Mexico Environment Department should give the public an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
