

Sophia Nuanez

It is unacceptable to let such destructive capitalist AI companies extract even more resources from our already over-exploited lands and people. This environmental racism is being endorsed by virtually all public officials and politicians, as they shamefully value profit over life. Shameful and disgusting, DO NOT LET THE DATA CENTER INTO NM!

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.

Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.
