

Francesca Reyes Fabbri

I am not in support of this project. It is wrong and is destroying the planet as speak. AI is a destructive tool that deteriorates the environment all around us. We should not let this happen and most definitely should not let this become a project in the future that is already so scarce."The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
