

Sofia Ezeocha

I am signing to help stopping PROJECT JUPITER! . We don't want more ai data centers !! We already only have 3 YEARS to save this planet before the damage we have done is too late to reverse. And this dumb Project Jupiter thing is destroying the eco system, THIS PLANET. And I will say it again, we don't want ai, especially not more then there already is. This whole world is just turning everything into ai data centers and more generative ai stuff. Generative ai is one of the AI's that we are able to avoid the most, we don't need it and it doesn't do anything good, so please stop this PROJECT JUPITER and invest in things that will actually help the planet instead of destroying it!!! STOP PROJECT JUPITER!

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
