

Todd Miller

Dona Ana County is starving for innovative jobs and business, I have an Industrial Hygiene-EHS background, and understand the systems. I built similar chemical plants with scrubbers, cogen, bio-capture, rain water management in India, Indonesia, Saudi and other nations. Im amazed at the lack of knowledge of citizens in Dona Ana County, and hate for change.

I am writing to express my support for Project Jupiter, which I believe offers significant benefits for our community.

Project Jupiter is poised to bring substantial economic growth to Doña Ana County. It is anticipated to create 4,000 construction jobs and 1,500 project-supported jobs. Furthermore, Project Jupiter has committed \$50 million to help repair, upgrade, and improve local water systems; \$360 million in direct support for schools, infrastructure, and local services; and \$6.9 million to fund workforce development initiatives along with supporting the Boys and Girls Club of Las Cruces, clean drinking water, the local community college, and habitat restoration.

I urge the New Mexico Environment Department to approve this important project.

Sincerely,
Todd Miller
