

Caelvin Anon

Do NOT build this data center. Project Jupiter could literally destroy the planet, not that you probably care, you selfish asshole. AI is already killing us slowly, we don't need it to be worse. Animals are going extinct, there are droughts everywhere, the polar ice caps are melting because of the climate change AI is making. Think about something other than money for once. The air quality permit application should be denied, and if it's not you need to hold a public hearing needs to be held in Santa Teresa. The people of Doña Ana County are already getting butt-fucked by the air quality. They don't need it to be worse. It genuinely bewilders me how disgusting and self absorbed people like you are. I don't believe in god, but sometimes I hope there is a hell so that people like you suffer. 1 million gallons of water a day is absolutely INSANE. I hope you get fined another 1.4 million bucks and go bankrupt you fat fucking loser. If you're not gonna stop for nature or your family or your friends (assuming you have any), do it for yourself, because this WILL effect YOU too. I can't believe a 16 year old boy has to explain this to you, you fucking idiot. I hate you. Do better.
