

Jocelyn D'Alton

Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.

We don't need more data centers. We need our energy costs low, water for all residents and bees for pollination of our food.

Studies are linking data centers to bee deaths.

How will residents have water if the plant is using 1 million gallons of water per day?

These gas powered plants are just furthering greenhouse emissions & climate change.

What good is AI if we are suffering from the data centers?

They say it might cure cancer, but they aren't using it for that purpose. It's being used for chat bots.

Please keep data centers out of New Mexico.

This is all for the wealthy to profit at the expense of the lower and middle class.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste.
