

Loes Beyens

The project jupiter will take up a lot of water our community counts on. It will destroy the natural fauna and flora and be devastating to the health of humans and animals. Cancel project jupiter for our very near future.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually. Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.
