

Yasmine Jahangiri

I am a resident of Las Cruces and I am asking that you deny Yucca Growth Infrastructure's air quality permit. As the NMED it is your job to protect and restore our environment. Allowing an experimental data center to be built by a company who is known to illegally dump hazardous waste at an unprecedented level goes directly against your mission. I ask that you extend the public comments period to 60 days and allow the public to further review the proposed permit
