

Tyler Henry

We have lived eons on this earth and have been perfectly fine WITHOUT AI. These data centers solely exist for the rich. They are poisoning communities and the environment. Nobody wants these data centers. Nobody NEEDS these data centers.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
