

Johnathan Venero

Project Jupiter is HORRIBLE and generative AI as a whole is horrible. It's already been used for horrible things and will continue to be used for such horrible things, and AI data centers are horrible for the environment as a whole. No body likes AI and we don't need it either. Fuck generative AI and you billionaire pigs.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
