

Henry Ye

Hello, I'm from Poole in Dorset, UK and I'm asking you to stop Project Jupiter. It will affect many people all across the globe and the fact that we only have 3 years left to prevent the irreversible effects of climate change. It is crucial to stop this. Future generations, if they ever will exist due to the lasting effects of climate change, will suffer immensely from the conditions that your kind of companies left them with.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
