

Sofia Torres

If the air changes then it gets really hot once it gets really hot then the humidity goes up it's going to be feel like a hundred degrees and people can have seizure so more people are going to be hurt. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
