STOP PROJECT JUPITER. The entire planet earth will die and so will the rich and the poor. When the winter is as hot as the summer and this summer will melt through our homes you will wonder why and blame everything but the hungry hungry idiots that think money is what we need to survive, not food and water. The more people die the less people to grow our food or make our clothes and that's the only thing rich people care about so, there you go. Nobody is safe. WE NEED TO WAKE UP AND STOP. THIS IS STUPID. ABSOLUTELY STUPID. I WANT TO LIVE I have friends and a partner and pets and i want to see them live i want to see myself live. I don't just want to hear that "we will adapt cuz humanity always has" anymore. It's a stupid argument. We are adapting to a hell we are creating and can fully avoid. Stop being stupid. Stop ruining our planet. It's the only planet in an entire solar system with naturally appearing life on it and you want to kill it all for nothing. AI won't make our lives better, matter of fact it already made them worse, people don't think or read anymore. Technology is taking over. We are destroying humanity. STOP PROJECT JUPITER. CEASE PROJECT JUPITER.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
