

John Morris

I am writing to express my deepest non-support for Project Jupiter, which I believe offers no significant benefits for our community.

Project Jupiter is poised to bring nothing but wasted aquifer, promises of jobs that are unrealistic, \$50 million to never help any of us to help repair anything, \$360 million in direct support for schools, infrastructure, and local services that none of us will ever see, and an empty promise of \$6.9 million to fund workforce development initiatives along with supporting the Boys and Girls Club of Las Cruces, clean drinking water, the local community college, and habitat restoration? What a crock. This is all a LIE. Shame on all of you.

I urge the New Mexico Environment Department to fight against this heat sink that will bring air, water, heat and noise pollution on a grand scale to our already fragile desert ecosystem. NO ONE WANTS THIS HERE.

Sincerely,
John Morris
Las Cruces NM
