Please consider what this will do to not only New Mexico, but the planet at large. We all have to live here, think about not only the animals and ecosystems this will devastate, but the human beings it will affect for years to come. Think about your family and the kind of world you want them to live in.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
