

McKinna Berry

I ask you to NOT go through with project Jupiter. Project Jupiter is going to warm so many families, and wild life. People are native to the land around them and they will be forced to leave that. Imagine how you would feel, knowing your own home is being taken over for an AI COMPANY.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
