Why are we not consulting the citizens of the cities, you are actively trying to ruin. Also, maybe we should start considering that the greedy people pocketing money from this being passed also will have to live in and suffer the same low quality living consequences that will come with you making decisions with no regard for the human lives that not only pay your bills but voted you into office to protect us.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
