

Selah Peterson

I will die before I live in a world without proper fresh water and nature. When all the water is gone what will we do? Everything will collapse and all for money they don't need. The people closer to this monstrosity don't even want it either, deny the air quality permit. STOP PROJECT JUPITER!

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
