

## Heather Pham

The permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste and the public allowed to know of all details and make comments.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.

Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.
