

Michelle Melendez

I am a real New Mexican - not tricked into giving my email so it could be used by Oracle. I oppose the Yucca Growth Infrastructure construction permit. They have been deceitful, dishonest and shady AF. They keep changing their plan, are not being transparent, and are trying to influence a public process through pouring money into a public misinformation campaign. There are no real jobs- only pollution and a water-wasting whale of a fake project meant to make money for shareholders. Vote no!! Protect New Mexico!
