

Juliana Hernandez

I am writing to express my OPPOSITION for project jupiter. This project and its coordinators have disregarded the community of Sunland Park and Santa Teresa. This project will bring pollution, disrupt the environment and depreciate the quality of life for thousands of New Mexicans who have ALREADY been dealing with inadequate water in the area. Promises of money should not be at the front of this decision. New Mexico is NOT poor and we need to protect one another from outsiders who come to exploit our resources.

I urge the New Mexico Environment Department to reject the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application.
