

S. Kay

Honestly---we have been storing plenty of "junk" here in New Mexico over all these many years. It's now the turn of OTHER STATES to step up to the plate & store it outside of NM. I keep praying that all this waste will end & there will be a way to SAFELY store & or get rid of it somehow. Molecularly, there has to be a way to change & alleviate the toxicity of it all.

Thank you.
