

Leslie Bryant

As a private citizen who lives in New Mexico, I submit this request. Do not continue bringing hazardous waste through our state for deposit at the WIPP site. I have long been opposed to the use of our roadways and land for storage of this hazardous material. I don't have facts or figures to offer. Only my request as a person who calls New Mexico home. I ask that you honor the original plan to cease shipments in 2024.

Thank you.
