

Carol Johnson

WIPP RENEWAL DRAFT PERMIT: I have lived in northern New Mexico for 27 years. I moved here for the beauty, the clean air, water and wildlife. I am 85 years old and I plan to spend the rest of my life here. I object to the continuing WIPP project and request protection of New Mexico's land, air, water, and the health of our people and our wildlife from the unhealthy WIPP project. I am on the Board of the Upper Pecos Watershed Assn. and NM Wild. There are many other states which are more deserving of the WIPP project and they should be granted the opportunity to become home to WIPP.
