

# Economic Development Corporation of Lea County

The EDC of Lea County is a membership organization of 70 businesses that are located in or have business interests in Lea County. The EDC of Lea County is a long-time, proud supporter the WIPP project, as it provides high-quality jobs on a large scale. WIPP provides an important service to the nuclear industry, while also providing critical job diversification for our community. We do not support any permit changes that would hinder the quality and important work of WIPP.
