

## Jean Crawford

I'm writing in support of the WIPP Agency-Initiated Modification Draft Permit as proposed by NMED for the following reasons:

DOE's irresponsible storage of legacy waste threatens the health and safety of people and their property in several states, especially in New Mexico. The proposed permit modifications are needed because DOE is not fulfilling its legal agreements. This waste is very dangerous, fire danger is extreme and ignoring the problem is criminally irresponsible.

Thank you, Jean Crawford, Albuquerque and Red River
