

Roger Ingersoll

Dear Texas Commission on Environmental Quality,

My name is Roger Ingersoll and I live in The Woodlands, TX. I am a constituent of Senator Paul Bettencourt, and Representative Valoree Swanson. I'm also an active member of Citizens' Climate Education, a non-partisan non-profit organization. I greatly appreciate the opportunity to submit comments regarding 2024-027-113-AI.

EPA's methane reduction directive should be applied to its fullest extent, ensuring strict compliance with 40 CFR Part 60, Subpart OOOOc. Methane is a potent greenhouse gas, so cutting emissions is critical to reduce future climate impacts. Thus TCEQ is urged to adopt strong, transparent standards that prioritize environmental health, and protect vulnerable communities near O&G facilities.

Sincerely,
Roger Ingersoll
