

Luke Metzger

Please see the attached petition signed by 427 Texans urging the TCEQ to "develop and approve the strongest possible state implementation plan — with no loopholes — to comply with the federally required methane pollution rule and to implement this plan as rapidly as possible."

The Texas Commission on Environmental Quality (TCEQ) should develop and approve the strongest possible state implementation plan — with no loopholes — to comply with the federally required methane pollution rule and to implement this plan as rapidly as possible. Sincerely,			
Chris	Thigpen	Spicewood	TX
