

Stephanie Morrison

Regarding 2024-131-101-AI, the TERP funds. Every summer I am so sick of seeing Orange and Red alerts "limit outdoor activity" on billboards like we are in some creepy society that can't even go outside. It is so sad. And, to use money citizens pay for our cars to help big polluters who have millions and millions of dollars??? I oppose this plan. Make the polluters pay, not citizens. And let's clean our air so we don't have to hide inside and see our kids get sick.
