

## Lawson Reilly

Using citizen taxes intended to help PREVENT and mitigate pollution to instead give subsidies to companies so they can pay their penalties without affecting their bottom line and go on to pollute MORE, with IMPUNITY, is a TERRIBLE idea. Are y'all imagining no one is paying attention to what you are doing? Straighten up, pay attention to your conscience, and do your job. PROTECT US, citizens who depend on you, from the companies this rule intends to reward.
