

Daryl De Luca

When we purchased our property in Mystic Shores we were NEVER made aware of the potential routing of treated wastewater through our property and the Devil' Hollow Park! Had we known we would NOT have purchased the property. Nobody would want their family and family's kids playing in such an area. No one ever contacted us about wastewater flowing across our property. My understanding is that property rights have not been acquired to use any property in Mystic Shores. So why are they proceeding with a plan to do so, and who gave them the right! I firmly believe this is an unlawful act and the developers of Canyon Ranch should NOT be allowed to move forward on the project.
