

Sarah Hesterlee

When companies are putting profit over people, that profit needs to be hit hard for them to listen. Please continue to focus enforcement on repeat violators (like W.A. Parish) and increase penalties. Therefore, I am in favor of more vigilance, more reports, more regulations, more rejections along with more public outreach via comment periods, input requests, and public meetings-- including more media coverage and emails to individuals in affected areas. Therefore, I support Senate Bill 1397, commonly known as the TCEQ sunset bill. Thank you!
