To Whom It May Concern,

I am concerned that the proposed list of Best Management Practices for Aggregate Production Operations is grossly inadequate. For starters, they do not address practices to minimize water consumption, noise, and light pollution, as was directed to by the Texas Legislature. The BMPs for the areas they do address — dust and water storage — also warrant serious improvement.

Please enforce practices that protect the LIFE of humans and animals of our environment. Money cannot buy back what we destroy.
