Re: TCEQ Invites Stakeholder Comments on Potential Rule Changes

On behalf of the City of Dallas, thank you for the opportunity to provide comments on the potential rule changes, released on June 25, 2026. We respectfully offer the following two comments:

1. Regarding 30 TAC § 288.1 – Definitions: We agree. The definitions are out of date and need to be updated based on rule changes.
2. Regarding 30 TAC 288 Subchapter A - Water Conservation Plans: Revisions are needed to make the requirements less specific and more flexible to accommodate additional water uses (desalination, wholesale, etc.) and to account for changing conditions, i.e., reduced supply and increased population.

Thank you for your consideration of these comments. Should you have any questions, please contact Alison Hanson, Senior Project Coordinator at Dallas Water Utilities at alison.hanson@dallas.gov.

Sincerely,

Sarah Standifer, Director
Dallas Water Utilities
