

Jerry Ahrens

Chapter 288

Three chapter titles referencing "Water Conservation Plans..."

Please share with me staff draft revisions because it is unclear what it means for the rules to be less specific.

Chapter 295

One Chapter titles referencing "Amount and purpose of Diversion of Use".

This topic is extraordinarily important to me. Amended Certification of Adjunction clearly state amount available for multi-use but Watermaster (Rio Grande) imposes restrictions that DO NOT conform to language in the water right. Please contact me so that this nonconformity can be corrected for everyone's benefit.
