RE: Stakeholder Comments – Potential TCEQ Rule Changes through the Texas Regulatory Efficiency Office

To Whom It May Concern:

Hidalgo County Irrigation District Number Two (HCID No. 2) would like to express our sincere gratitude and appreciation to the Texas Commission on Environmental Quality (TCEQ) for the opportunity to provide stakeholder comments on agency rules that have been identified for potential improvement through the Texas Regulatory Efficiency Office's rule review process. The HCID No. 2 provides water to agricultural users and raw water to the cities of Alamo, San Juan, Pharr, Edinburg, McAllen and North Alamo Water Supply Corporation.

We humbly offer the following comments:

- The Notes/Justification for the following rule changes are not descriptive enough to ascertain the proposed revisions:
 - 30 TAC Chapter 288, Subchapter A & B.
 - 30 TAC §295.51 (a)(6).
 - 30 TAC §295.7.
 - 30 TAC §297.71.
- We are in favor of the following rule changes:
 - 30 TAC §295.2.
 - 30 TAC §303.11(d).
 - 30 TAC Chapter 303, Subchapter I.

We thank TCEQ again for their proactive engagement during this stakeholder comment period.

Sincerely,

Anthony Stambaugh
General Manager
