

Andrea Albert

I urge you to reject the proposed air-pollution permit for the Copper World mine. As it's currently drafted, the proposed permit does little to ensure the mine protects our air or environment. At a minimum you must require the Copper World mine to obtain a Class I permit. A Class I permit is necessary so that the mine is **always** accountable for limiting its air pollution and protecting the environment — no exceptions. This company is environmentally unscrupulous and absolutely everything must be done to ensure compliance. I am adamantly opposed to Copper World, and, frankly, am unconvinced of the need for any of their mining activities here.
