

Wolfgang Golser

I strongly urge you to reject the proposed air-pollution permit for the Copper World mine. It is flawed! As it's currently drafted, this proposed permit does little to ensure the mine protects our air or environment.

At a minimum you must require the Copper World mine to obtain a Class I permit. A Class I permit is necessary so that the mine is **always** accountable for limiting its air pollution and protecting the environment. There should be NO exceptions!

Thank you for your consideration!
