

## Kimberley Sonderegger

I grew up in Tucson and am very familiar with the Santa Ritas and the area the mine would alter. I urge you to reject the proposed air-pollution permit for the Copper World mine. The proposed permit, as it is currently drafted, does not ensure the mine protects our air or environment. At a minimum you must require the Copper World mine to obtain a Class I permit. A Class I permit is necessary so that the mine is truly accountable for limiting its air pollution and protecting the environment — without exceptions.
